 regulation of water payment must be appropriate to have
 distribution continuity. Mc. Neil [3] also says that water is an
 money commodity which cost of water consisted of
 distribution, production and transmission. Brooker [4]
 presents that the water cost optimization is based on the
 use by Labadie [5] and Leon [6], is about water allocation
 optimization without water cost.

The new model objective functions are
 Maximize X and Minimize Y; $Z = Y1X1 + Y2X2 + Y3X3 + Y4X4 + Y5X5$
 The constraints are; $X1, X2, X3, X4, X5 \leq \text{User + Volume}$; $X1 + X2 + X3 + X4 + X5 \leq \text{Reservoir Cap}$
 $Y1, Y2, Y3 = \text{Water Variable Cost}$; $X1, X2, X3, X4, X5 = \text{allocation variable}$

Regression Analysis
The program required is to optimise the water use and the water price. The difference between model could be seen in Figure 1.

Seorang dosen yang berkualitas menarik karya ilmiah dari
Journal Applied Mathematical Science penerbit
Hikari menarik karya ilmiahnya karena tidak yakin bahwa
karya ilmiahnya direview dengan baik

INFORMASI INTERNATIONAL JOURNAL “ APPLIED MECHANICS AND MATERIALS ISSN 1662-7482 DARI PUBLISHER TRANSTECH

Ditemukan bahwa Karya ilmiah /artikel di International Journal “ Applied Mechanics And Materials “ paling tidak diketahui berasal dari conference APEESD 2012, CMAME 2013, IMME 2015.(website dicek sudah tidak ada lagi) dan juga di salah satu konferensi regular yang diselenggarakan oleh PT di Indonesia. Perlu diketahui Sejak awal dalam Call Paper conference , pengelola conference menjanjikan paper akan dipublish di Journal “ Applied Mechanics And Materials. Hal ini sama saja dengan apa yang terjadi beberapa tahun lalu dan sudah tercantum di Pedoman Operasional lama/baru bahwa karya dari seminar/konferensi yang dimasukkan kedalam jurnal nasional terakreditasi dianggap sebagai supplement. Dengan demikian semua karya ilmiah dari konferensi yang kemudian dimasukkan kedalam jurnal akan dianggap suplement, berbeda dengan selected artikel yang diangkat/dipilih untuk dimasukkan ke Jurnal

Dalam penilaian kenaikan jabatan ke Guru Besar pada bulan April 2015 ditemukan sebuah artikel di Jurnal Telkomnika Vol xx no y tahun 2014 yang kualitas tulisannya tidak memenuhi persyaratan sebagai karya ilmiah internasional bereputasi sehingga usulan ke GB di tolak. Masih ada satu lagi yang dari dalam negeri cara penulisan artikelnya tidak baik. Diharapkan pengelola **jurnal Telkomnika** lebih baik lagi dan bersungguh sungguh dalam melakukan review artikel yang diusulkan ke Jurnal Telkomnika.

Chief Editor Jurnal Telkomnika ini juga Chief Editor Jurnal *Power Electronics*, ditemukan pada akhir 2015, satu artikel dari dosen PT nomor wahid di INA proses reviewnya tidak dilakukan dengan baik

Pada tanggal 4 Juni 2015 telah diunggah dilaman pak,dikti.go.id berita tentang Jurnal Telkomnika Telecommunication, computing dan Electronics and Control ISSN 1993-6930 yang termasuk di dalam daftar Scimagojr –Elsevier dan jurnal yang masuk dalam daftar Scimagojr dikategorikan sebagai jurnal internasional bereputasi, dan Telkomnika juga adalah Jurnal nasional terakreditasi Dikti dengan peringkat A sejak tahun 2013. Disebutkan bahwa terdapat 2 buah artikel(karya ilmiah) pada penerbitan Telkomnika Vol xx dan y bulan 2014 yang tidak memenuhi persyaratan sebagai karya ilmiah internasional bereputasi. Pada awal Juli 2015 Tim PAK untuk suatu kepentingan melihat kembali kedua artikel pada volume dan nomor yang sama dari Jurnal Telkomnika versi on line dan ditemukan bahwa kekurangan dalam kedua artikel tersebut telah diperbaiki dan jika dibandingkan dengan edisi cetak yang dilampirkan dalam usulan kenaikan jabatan tidak sama lagi.

Apa yang dilakukan redaksi Jurnal Telkomnika dengan memperbaiki artikel online yang sudah dipublish adalah tidak lazim meskipun nampaknya merupakan suatu upaya memperbaiki citra jurnal Telkomnika. Disisi lain hal ini menunjukkan bahwa Jurnal Telkomnika tidak dikelola dengan baik sehingga diragukan apakah semua artikel yang telah diterbitkan direview oleh pakar yang berpengalaman sesuai bidangnya atau tidak direview. Meskipun suatu artikel telah diterbitkan oleh Jurnal yang masuk dalam kategori jurnal internasional bereputasi tetapi Tim PAK tetap memperhatikan tata cara penulisan karya ilmiah agar dapat diakui sebagai karya yang bermutu.

Dengan demikian artikel-artikel yang diterbitkan oleh Jurnal Telkomnika ISSN 1993-6930 tidak dapat diakui sebagai karya ilmiah di jurnal internasional bereputasi.

Permasalahan sudah diselesaikan dan Chief Editor sudah meminta maaf dan perbaikan dilaman pak.dikti.go.id

Pada pertemuan tgl 16 Sept 2015 Pengelola jurnal telah mengakui kekhilafan dalam memperbaiki artikel di volume 12 no 3 : September 2014 dan telah menyatakan akan mengikuti ketentuan Code of Conduct and Best Practice for Journal Editors dan Code of Conduct for Journal publisher (Terlampir surat pernyataan dari Ketua Penyunting Jurnal Telkomnika xxxxxxxx. ditujukan kepada Direktur Karier dan Kompetensi SDM)

Permasalahan yang telah terjadi telah diselesaikan dengan baik dan Jurnal Telkomnika diakui kembali sebagai Jurnal internasional bereputasi yang terindeks di Scimagojr dan mempunyai SJR. Namun demikian sama seperti jurnal internasional bereputasi lainnya yang terindeks di scimagojr , setiap artikel yang terbit, untuk dapat diakui sebagai karya ilmiah yang diterbitkan di jurnal internasional bereputasi harus memenuhi tata cara penulisan yang baik (memenuhi kaidah ilmiah dan etika keilmuan) .Sebagai contoh lihat di laman https://www.elsevier.com/___data/assets/pdf_file/0003/91038/Get-Published-Quick-Guide.pdf dan banyak lainnya seperti di petunjuk penulisan karya ilmiah di jurnal dari IEEE, Wiley ,Springer link dll

International Education Studies

Jurnal internasional berjudul “International Education Studies” ISSN 1913-9020(print) dan 1913-9039(online) yang diterbitkan oleh **Canadian Center of Science and Education** terindeks di scopus dan mempunyai SJR diragukan sebagai jurnal internasional bereputasi karena dari hasil pengecekan secara daring salah satu Editorial Boards member yang ada di hardcopy jurnal, nama college of Education dari university of Canterbury tidak sama dan nama anggota editor board tersebut tidak ada . Selain itu jurnal ini berpusat di Amerika Serikat bukan di Canada. Nama Editorial Asisten Versi hardcopy dan versi on line sama tapi editorial board members berbeda.

How to perform due diligence before submitting to a journal or publisher.

- Check that the publisher provides full, verifiable contact information, including address, on the journal site. Be cautious of those that provide only web contact forms.
 - Check that a journal's editorial board lists recognized experts with full affiliations. Contact some of them and ask about their experience with the journal or publisher.
 - Check that the journal prominently displays its policy for author fees.
 - Be wary of e-mail invitations to submit to journals or to become editorial board members.
 - Read some of the journal's published articles and assess their quality. Contact past authors to ask about their experience.
 - Check that a journal's peer-review process is clearly described and try to confirm that a claimed impact factor is correct.
 - Find out whether the journal is a member of an industry association that vets its members, such as the Directory of Open Access Journals (www.doaj.org) or the Open Access Scholarly Publishers Association (www.oaspa.org).
 - Use common sense, as you would when shopping online: if something looks fishy, proceed with caution.
